INSTALLATION

Once the paving blocks are arranged in a specific pattern, each unit interlock with the surrounding units to form a geometric design.

They are easily installed without the use of mortar. The color and design combination gives your landscape a strong uniform and eye catching appeal. Its Aesthetic value drastically improves.

BENEFITS OF USING OUR BLOCKS

1.Strength and stability

Dada Paver products are constructed from high-quality concrete, which gives them exceptional strength and stability.

They are engineered to bear heavy loads and resist cracking or breaking under pressure.

This makes them an ideal choice for areas with heavy vehicular traffic or frequent foot traffic.

2.Water resistance

Our products are designed to endure various weather conditions, including extreme heat, cold, and moisture.

It does not warp or deteriorate when exposed to temperature fluctuations or rainfall, ensuring its longevity even in harsh climates.

3.Colour Retention

Unlike some paving materials that fade over time, our products maintains its vibrant color and aesthetic appeal for years. UV-resistant pigments and sealing options help preserve the pavers' appearance, ensuring they continue to enhance the beauty of outdoor spaces.

4.Low maintenance

Our Products requires minimal maintenance to keep it looking its best. Routine cleaning and occasional resealing are typically all that's needed to maintain its durability and appearance, making it a cost-effective choice in the long run.

5. Resistance to stains and chemicals

Dada Products are resistant to staining from oil, grease, and other common outdoor contaminants. They are also impervious to the corrosive effects of chemicals, which are advantageous in driveways and industrial areas.

6. Crack Resistance

Cabro's interlocking design and flexible construction allow it to withstand ground movement without cracking. This flexibility helps prevent the development of unsightly cracks that can mar the appearance of other paving materials.

7.Eco Friendly

Dada pavers are eco-friendly because they are made from locally sourced materials and can be recycled. Their long lifespan also reduces the need for replacement, further minimizing environmental impact.

8.Customization

Dada Pavers comes in a variety of shapes, sizes, and colors, allowing for creative and customizable design options.

Whether you prefer a classic or contemporary look, cabro pavers can be tailored to match your aesthetic preferences.
